

Employer Name	Describe the externship experience you plan to offer at your worksite.
NacSpace	<p>We will have our matched teacher work through the levels of IT from entry to administrative rolls to see how students can start work with us as interns to work through our other opportunities. This will include time spent in the following roles in order - helpdesk to show how entry level team members answer calls from customers and help with base level problems, then to our installer team that does more complex troubleshooting and goes onsite for installs, then our network administration team that handles network and cyber security, and lastly our system administration team that works on all customer and internal servers.</p>
